

A Strategic Roadmap!

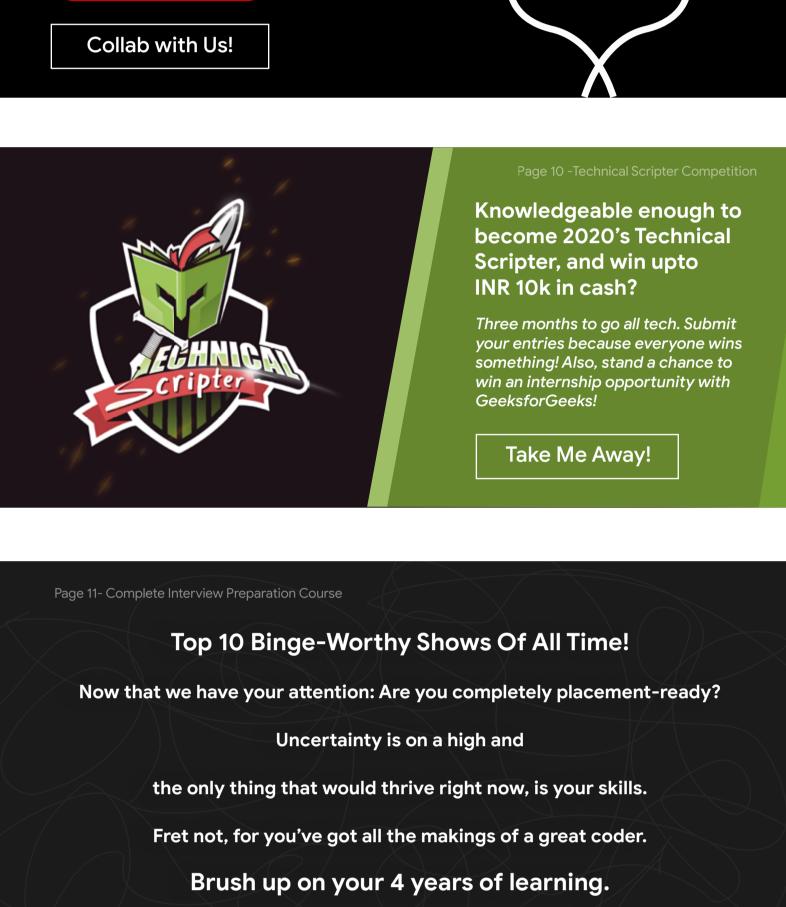

Avoid your system failures by listening to music,

curated just for you.

Listen on Spotify

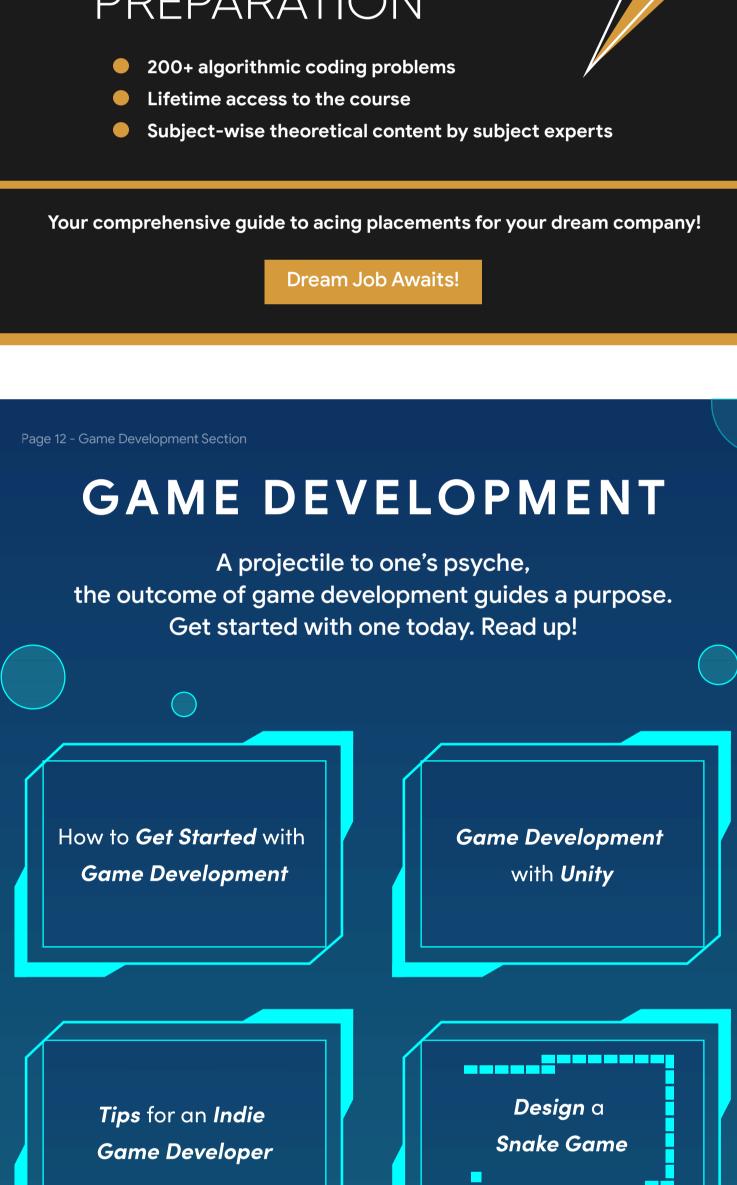

Listen on Youtube

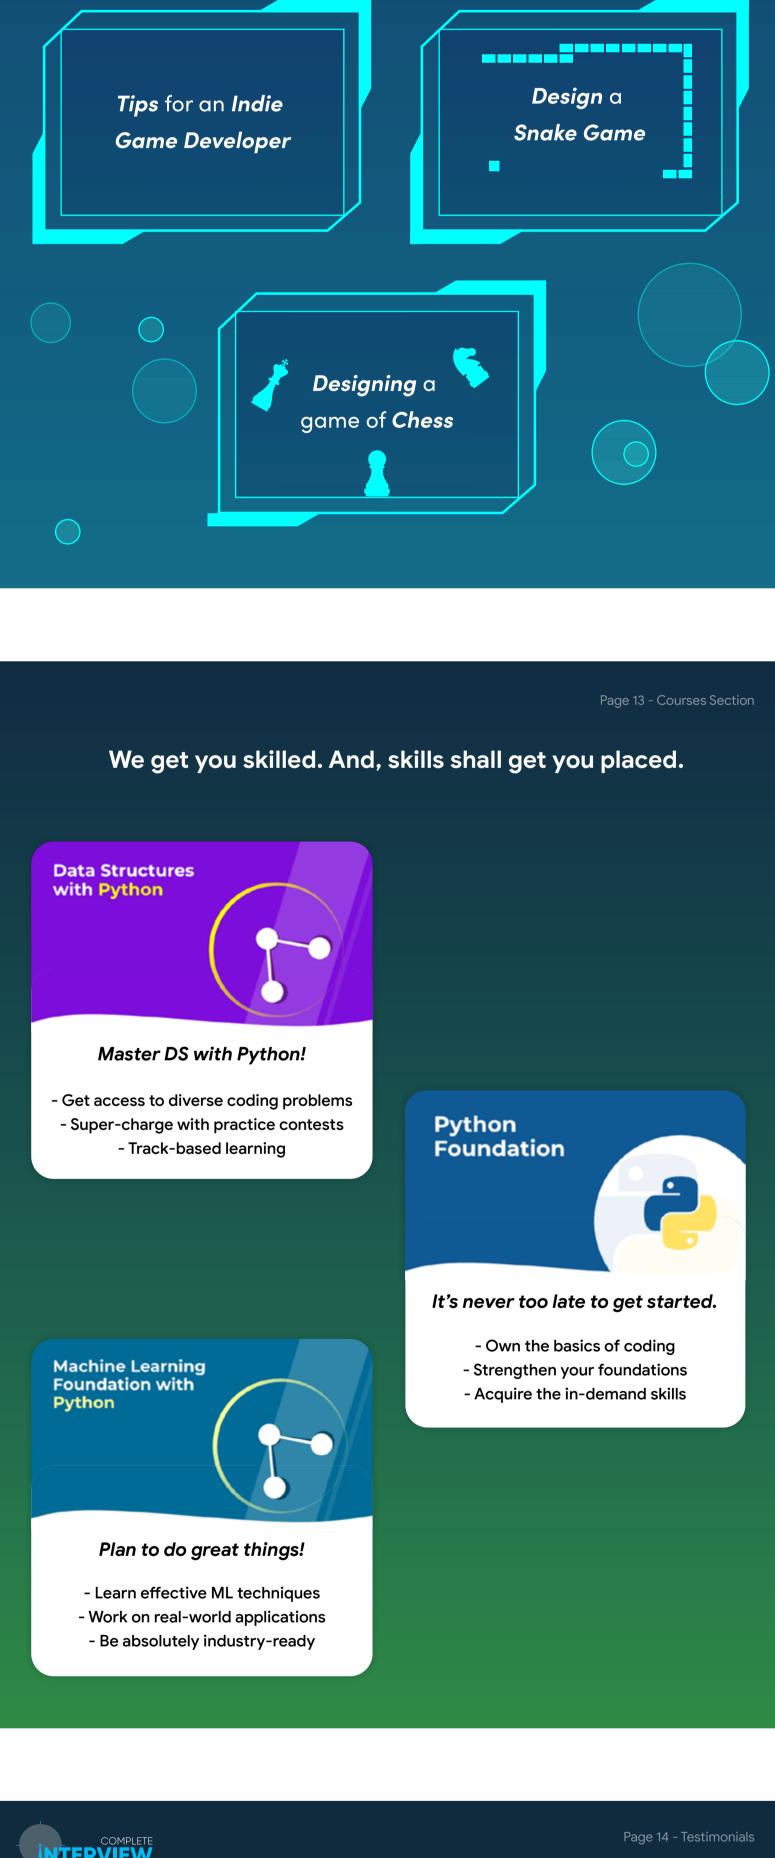

And guess when?

All in less than the next 6 months!

Let the Geeks do the Talking!

Placed in

ソく Royal Bank of Scotland

Being from a non-CS engineering branch,

my chances of being selected were already slim but this

course helped me a lot in coping up with my peers

from CS background. Everything that is

important like DSA, DBMS, OS, etc.

was taught in depth.

Special thanks to Sandeep sir for making things

PREPARATION

Placed in

ORACLE

This course was a complete package! It contained coding questions, technical subject quizzes, aptitude questions,

object-oriented design & OOPs concepts: All that was

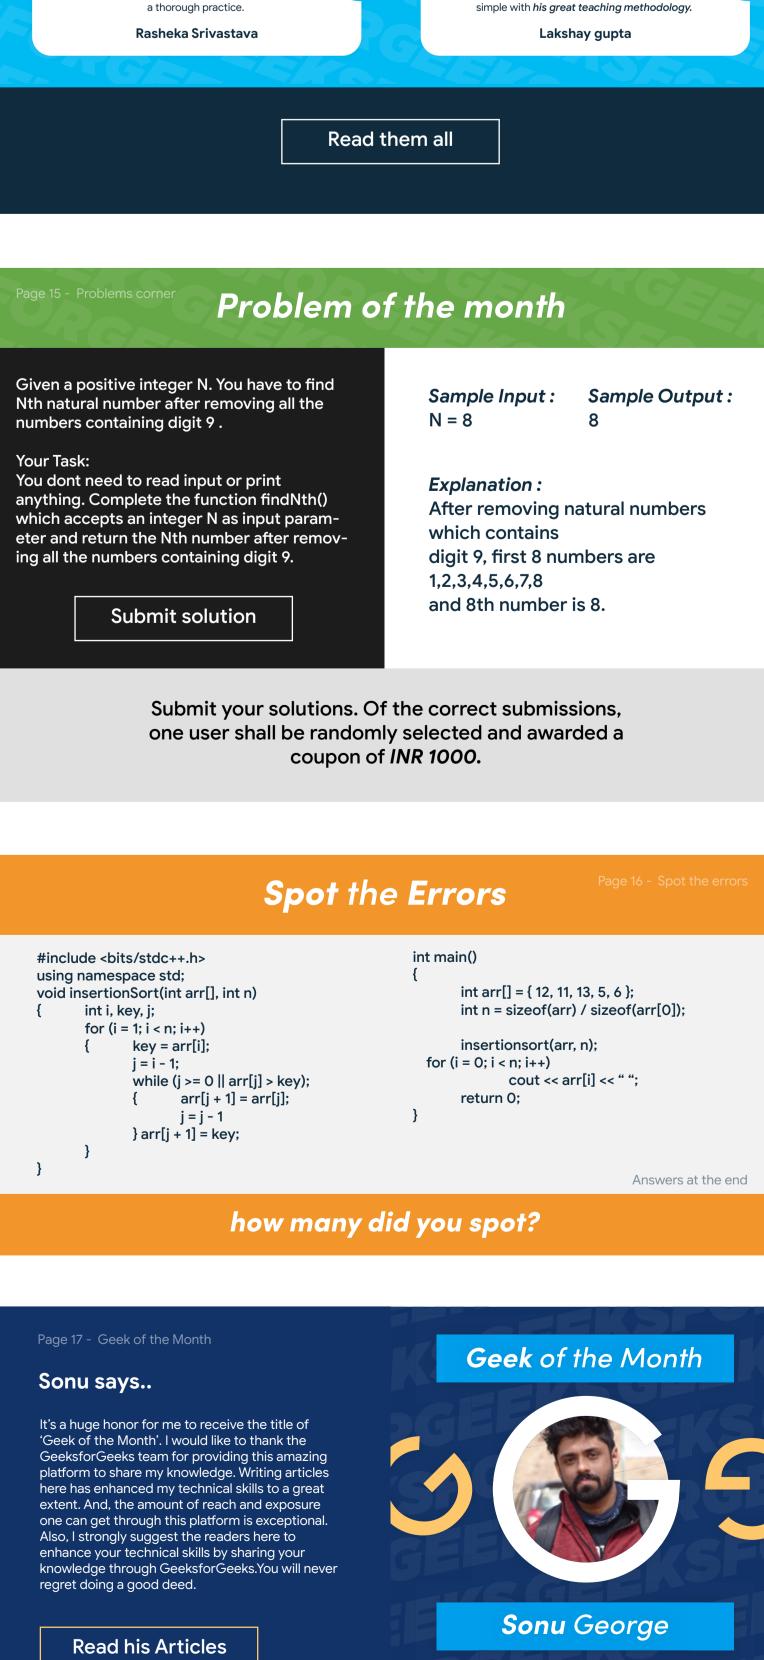

asked in almost every interview. This placement

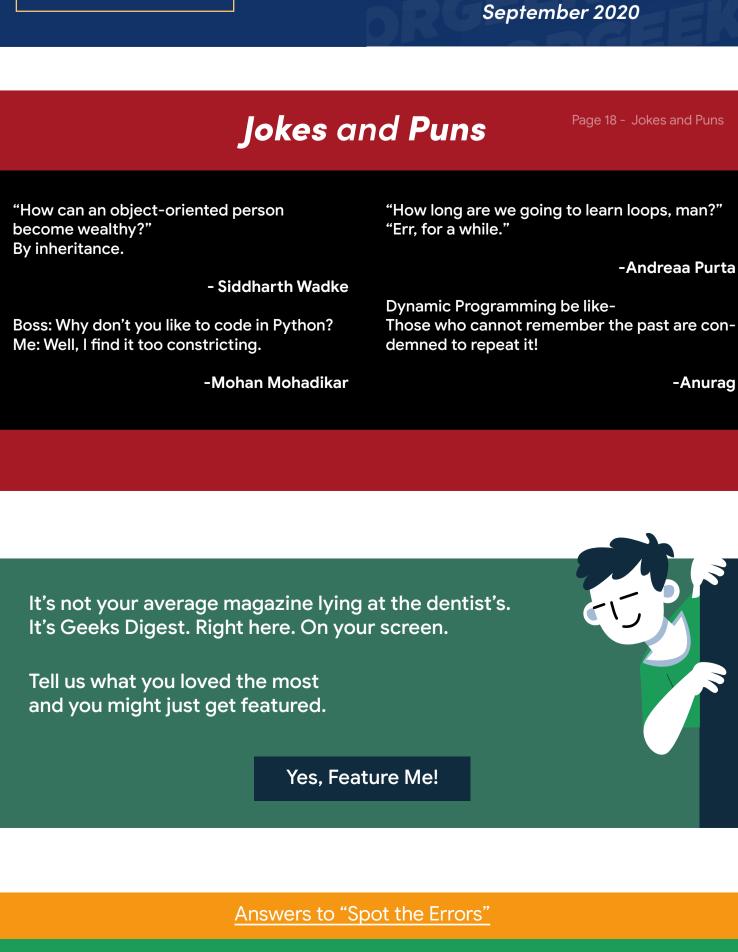

package assures 100% placement, in my opinion.

It contains all the relevant content for placements

and after completing each section, one may take

tests that give quite a real experience and thus,
